The following must be read and signed by the Hospital CEO or CNO:

This award seeks to increase understanding of the value of organizational focus and commitment to achieving optimal outcomes. Hospitals are urged to consider participation in the awards process both as recognition of their quality improvement and patient safety efforts and to assess their progress in creating an environment focused on safety and effectiveness.

Descriptions of those submissions receiving awards may be published by the Oklahoma Hospital Association to increase awareness of the importance and impact of an organization-wide commitment to quality improvement and patient safety, and to share and spread successes. Program contacts may be asked to provide additional supporting information.

I certify the information in this application is accurate and consent to the use of submitted information by the Oklahoma Hospital Association in publications or for the purposes of promoting exceptional quality in the delivery of care by Oklahoma Hospitals.
