

Understanding the Trends in Clinical Workforce Challenges

Tuesday, October 24 | 2:00 - 3:00pm CT

The OHA Board of Directors has ranked Workforce and Talent Development as one of the association's strategic priorities for the organization to address.

In response, OHA is working to assess the environment and is happy to partner with SullivanCotter for a one-hour webinar to discuss the latest health care industry trends, informed by its recent employee workforce survey, extensive market data and relevant experience working with the leading health systems.

The Webinar will explore today's labor challenges impacting the clinical workforce and how organizations are adapting clinical care models to ensure continuity of care. We will discuss the latest trends in compensation for nurses and APPs, including base pay, salary increases, compensation design and more.

We encourage you to join us for this complimentary learning opportunity to share this invitation with your colleagues.

Attendees will learn:

1. Relevant market trends and insights on how organizations address labor shortages and retention issues through strategic compensation practices
2. Organizational responses to increased nursing union participation and union/non-union compensation
3. Typical nursing reporting structures and spans of control
4. Trends in nursing compensation, including geographic differentials, compensation design, and salary increase planning
5. Trends in APP compensation, including emerging compensation designs
